Station Name Colour Codes

Deciding a station name and its placement is a process that takes some time. Once this has been fully decided, a station will be confirmed. Otherwise, stations are colour coded as follows:

- Station names coloured **BLACK** are CONFIRMED stations. This means that the station is extremely unlikely to be moved or re-named.
- Station names coloured **GREEN** are close to confirmation, only a little more time is needed to powder its position.
- Station names coloured **ORANGE** need more time for their confirmation. Likely, they will be stations new to the map in this version.
- Station names coloured **RED** will be renamed a placeholder name in situ. Any name suggestions are very much welcomed.
- Station names coloured **BLUE** or **PURPLE** will likely be positioned elsewhere.
- Station names coloured **YELLOW** are close to confirmation, only a little more time is needed to powder its position.
- Station names coloured **GREEN** are close to confirmation, only a little more time is needed to powder its position.
- Station names coloured **ORANGE** need more time for their confirmation. Likely, they will be stations new to the map in this version.
- Station names coloured **RED** will be renamed a placeholder name in situ. Any name suggestions are very much welcomed.
- Station names coloured **BLUE** or **PURPLE** will likely be positioned elsewhere.
